

# Why Create Fee Schedules?

---

**Did you know** you can have as many different fee schedules as you like? This feature has been around for quite a while, but we are still discovering practices that are posting insurance adjustments to accounts or overriding fees to reflect different insurance plan fee schedules.

## Why create fee schedules?

- Investing a little time up front will save you many hours down the line.
- There is less room for posting errors.
- Posting one fee and making adjustments later results in inflated receivables for your practice.
- When an insurance plan changes its fee schedule you make the change in one place, one time and the changes will apply to all employers connected to the plan.
