Click on the Bug Reporter icon**

There have been changes to the format of the screens.
Please take note if:

- ..any screens have errors or incorrect formatting.
- ..and where button functions don't respond.
- ..and where button functions should exist but are missing.
- ..any unusual functions/messages by letting us know what screen you were on,
what patient you were on and what you were attempting to do.

NOTE: How to take a screenshot:

pcLink for Windows:

When on the screen you are referring to, go to File>Screen Shot

Save to the desktop (or other designated folder) and submit electronically via the above website address.

pcLink for Mac:

When on the screen you are referring to, hold the Shift-⌘-4 then hit the SpaceBar. A camera icon will appear.

Click on the window you wish to screenshot. The file will appear on your desktop.

Submit electronically via the above website address.
